7.5 HP PREP GUN STATION

Reclaim Equipment Company's High Pressure Prep Gun Station is a prep station specifically designed to perform with reclaim water. The heart of this unit is a 7-1/2 horsepower electric motor mated to a direct-drive Wanner G-10 Diaphragm pump for unparalleled performance. Mounted on a powder coated aluminum frame, this reliable unit delivers 10 gallons per minute all day long. The direct drive Wanner pump is unique to this unit as it gives your site the capability to dependably supply reclaim water to your prep gun. Metering in detergent is a snap with the included hydrominder. With it's onboard motor starter, this unit installs in a mater of minutes. Reclaim Equipment Company... combining reliability with functionality at an unbeatable price.
