

# 15 HP High Pressure Pump Plant

**TAKES MORE PUNISHMENT  
THAN A RED-HEADED  
STEPCHILD.**

Reclaim Equipment Company's High Pressure Pump Plant delivers high pressure performance under the most demanding conditions you could ask of a pump: Reclaim Water. Built around the all-powerful Wanner H-25 Diaphragm Pump, and packaged on a MIG welded, powder coated aluminum frame, this pump plant will dependably pump fluids that would make other systems fail. This simple, rugged design will deliver up to 20 gallons per minute to any high pressure spray system on the market today, and will last many years absorbing whatever punishment you can throw at it. All this at a price that won't beat up your pocketbook.

## Key Features

- » Cleveland Float Valve to Control Water Supply
- » G-25 Wanner Pump
- » 45 gal. Storage Tank
- » Inlet Filter
- » Triple-Belt-Drive for Added Reliability
- » 15 -HP Motor
- » Tank Level Sensors and Controls
- » Powder Coated Alum Frame
- » Small Footprint Requires Minimal Space

## Equipment Specifications

Height	58"(147.32 cm)
Width	33"(83.82 cm)
Depth	35"(88.90 cm)
Pump type	H-25 Wanner Pump w/ 15 Hp Motor
Flow Rate	20 gpm (95.47 lpm)
Inlet size	1½" NPT
Outlet Size	1" NPT
Tank (cap.)	45 gals (170.34 L)
Supply Power	208/230/480 3-phase 60 cycles/sec
